Digital Marketing Strategist

Communications and social media, Increase Web site Traffic.

Display Advertising – The use of banner ads and other graphical advertisements to market products online.

Search Engine Marketing – Using search engines to help connect users with the products and services they are most interested in. Companies can pay to receive preferential ranking in a list of search results.

Search Engine Optimization – A free and organic way for companies to improve their visibility on search engines.

Social Media Marketing – Using sites like Facebook, Twitter and LinkedIn advertising campaigns to connect with customers.

Email Marketing – Communicating with customers through the use of carefully designed emails.

Referral Marketing – Using internet channels to encourage consumers to recommend products to their friends and families.

Affiliate Marketing – Working with other businesses to make it easier for consumers to shop for products online.

CRM and Technology Services : Whether you're implementing marketing and sales technology solutions for the first time or need to optimize your existing technology for greater effectiveness

Inbound Marketing – Boosting the value of a company's web presence by adding unique content like blogs, games, and tutorial videos.

Video Marketing – Using web videos for promotional purposes.

Companies use outbound telemarketing operations to sell products and services directly to customers and prospects. Telemarketing is an alternative to using a field sales team for selling and prospecting
